

# MOBILE APPLICATION USER GUIDE

The FireArrest application can be used on most Android and iOS smartphones/tablets.

Please note – any hardware used that does not meet the minimum requirements to run FireArrest is not a supported platform.

### 1. DOWNLOADING THE FIREARREST APP

1.1. Download and install the FireArrest mobile app from the 'Google Play Store' (Android) or from the 'App Store' (iOS).

1.2. Search for 'FireArrest' in the appropriate app store and follow the onscreen instructions to download and install.

1.3. Accept all permissions during the installation process – these will appear as a pop up on the screen.

## 2. LOG INTO THE FIREARREST APP

Please note – an active internet connection (4G or WiFi) will be required for logging in and signing the Method Statement/Risk Assessment only. You can use the FireArrest application in offline mode to access drawings and record works.

Select Project/Job	
Test	
Office 1	

## 5. SIGN THE PROJECT DOCUMENTS

5.1. Sign the Method Statement

Digitally sign the method statement document for the project. This must be completed before you can open any drawing.

F <b>(</b> reArrest	FA	Method Statement
Select Drawing		
First Floor 12		Risk Assessments
Ground Floor		Risk Assessments

### 5.2. Sign the Risk Assessment

Digitally sign the risk assessment document for the project. This must be completed before you can open any drawing.

If your administrator has uploaded a different risk assessment document for each drawing, you must sign them per drawing.

Please note – after a period of time working on a drawing, you may be asked to re sign the risk assessment document.

### 6. SELECT A DRAWING

Select a drawing from the displayed list. You will be able to access any drawings within a project that you have been assigned to.

Select Work or View Only mode.

Please note – you must be within the working zone of the project to access the drawings.

## 7. RECORD DRAWING DATA

7.1. Add a Pin

Zoom into an area and add a pin by pressing on an area for more than two seconds.

Select 'Yes' on the pop up.

7.2. Add Pin Data

7.2.1 Add Location Description

Press the text box to activate the keyboard - describe the location of the pin. Select 'view' to see all historic location descriptions.

### 7.2.2 Add Notes

Press the text box to activate the keyboard – add additional notes to the pin

Select 'view' to see all historic notes.
